

From filling a role with right candidate to bespoke brand building solutions, StatsJobs has it covered - and our latest update means that the site is now enabled to attract the growing number of mobile or tablet using candidates. Since 2008 Statsjobs has been connecting great companies with gifted Statisticians. Statsjobs' success comes from attracting a quality audience of statisticians by offering the most comprehensive selection of relevant stats jobs.

*"As the Head of Talent of Merck, I am absolutely delighted with the return on investment that StatsJobs has given me in the last 9 months. Merck has had 2 hires from StatsJobs, which compared to an agency would have cost us significantly more and impacted on the bottom line."*

## Online Rates

---

Standard job listing	- £249 (30 days)
Featured job listing	- £349 (30 days)
Email Sponsor	- £99 (30 days)
Dedicated Email Alert	- £199 (5,000 recipients)

## What we offer

---

### Standard Job Listings: £249

Post your full listing on Statsjobs and reach 20,000 site visitors for 30 days.

Your logo appears within your job advertisement.

All jobs are featured in the weekly email alert sent to 5,000+ subscribers

### Featured Job Listings: £349

Same benefits as the Standard listing, plus your job posting is positioned at the top of the homepage, above Standard listings which move down the pages as new jobs are added.

Your logo is also displayed on the homepage alongside other Featured jobs

You can expect a higher response - Featured listings receive 37% more applications on average.

## More Advertising Options

---

Job alert sponsorship put the employer logo and job title at the top of the email alert. Featured Employer banners appear on every job page giving additional exposure of over 60,000 impressions a month. As a sponsor of the weekly job alert email, your logo and position details will appear as a banner advertisement linking to your advertisement on StatsJobs.
