

**Europe's No. 1 Technical Job Board**  
*Science, Engineering, and Technology.*

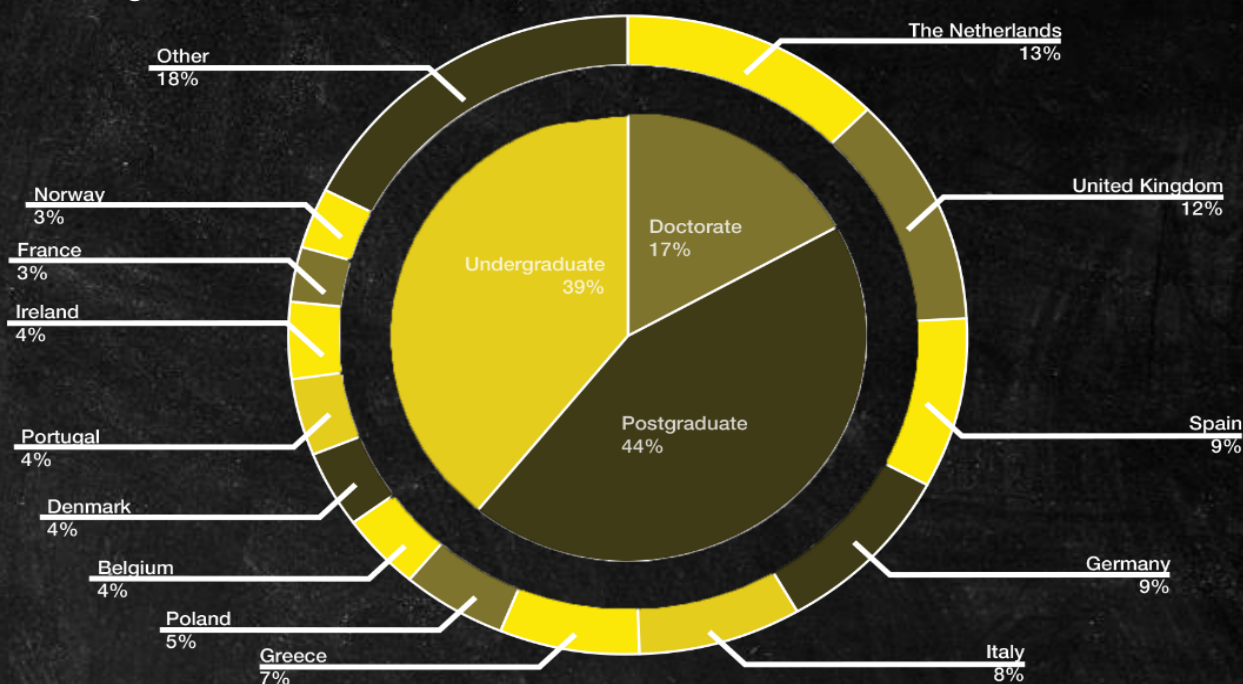

Media Package 2014

## ABOUT QREER.COM

Qreer.com is an independent technical career board. It enables European companies to post vacancies and internships; and applicants to search and apply for these positions throughout Europe.

Countries visiting Qreer.com:

Qreer.com is a reliable partner for recruiting highly qualified (BSc, MSc, and Ph.D.) technical professionals. The founders of Qreer.com have developed a concept - a website comprising of technical based candidates, showcasing 15 educational backgrounds; and over 150 specialties from all over Europe - with the sole intention of offering specialized and cost effective recruitment solutions, to both recruiters/employers and applicants.

## PROFESSIONAL NETWORK

Qreer.com is supported by an academic network. It provides a simple procedure for developing a career in the technical field, along with facilitating companies to easily find high potential talent and experienced technicians. Cooperation with the best technical universities in Europe, allows us to immediately bring vacancies and internships to the notice of both graduates and alumni.

University partnerships In Europe:

## EUROPEAN CONCEPT

Unlike other job sites, we provide a wide range of jobs across Europe; and, an unique platform for recruiters to choose amongst scientists, engineers, and technologists.

SPECIALIZED IN SCIENCE, ENGINEERING, AND TECHNOLOGY

Qreer.com is the ideal European Technical Job Board to advertise qualified jobs, specific jobs, and internships in the broad field of science, engineering, and technology .

Employers

Applicants

BACHELOR – MASTER – PHD JOBS

We are skilled in distinguishing between technical and non-technical roles. Qreer.com chooses to focus on bachelor (undergraduate), master (postgraduate), and PhD (doctorate) candidates based on 150 specialties.

## CREATE UNIQUE JOB PROFILES

We have designed an unique search engine that makes it possible to post jobs, catering to over 15 educational backgrounds; to which more than 150 specializations are linked.

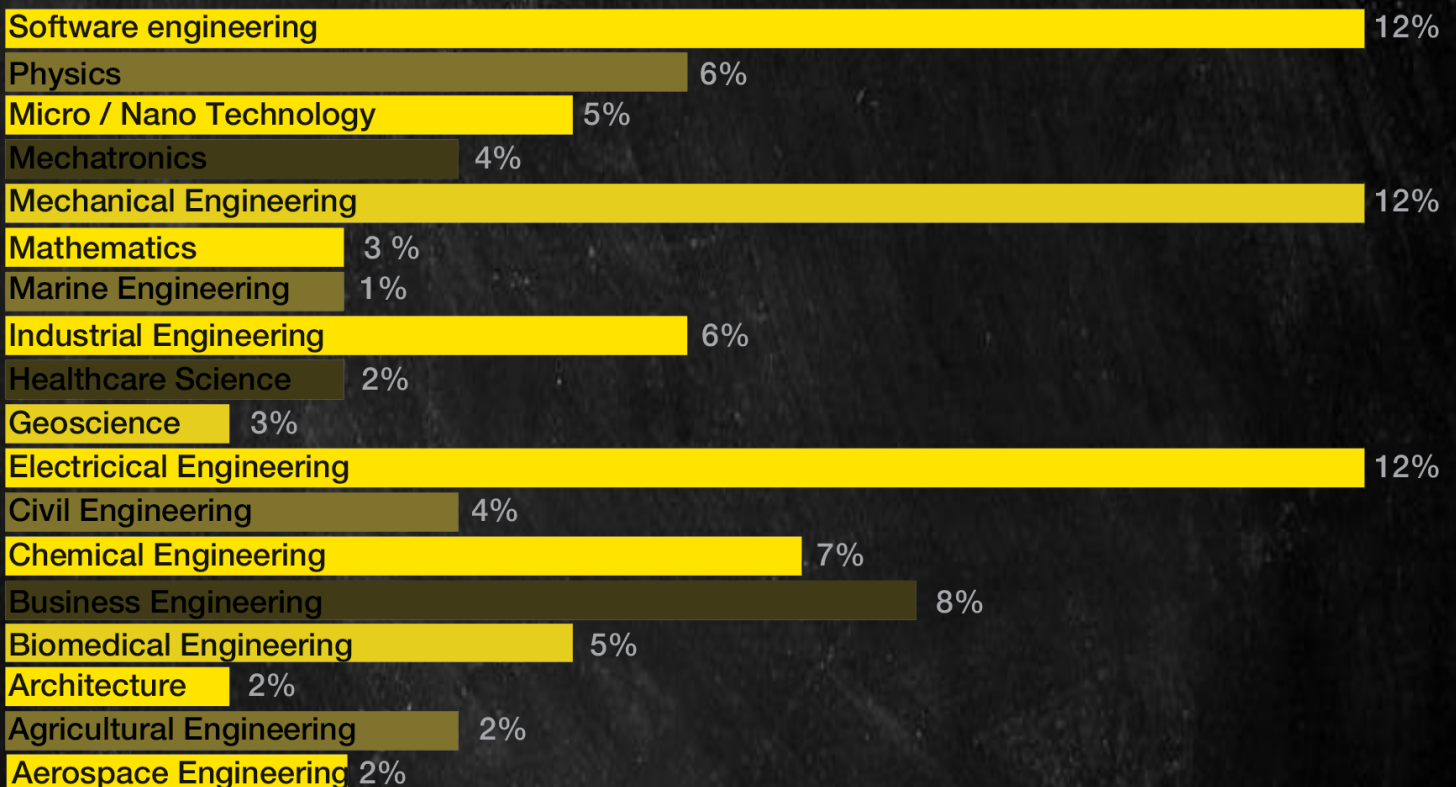

The listed specialties can be specific industrial or academic skills, or experience you require from the candidate.

## EUROPEAN JOB FAIRS

Come and meet us... Qreer.com is attending many (technical) Job Fairs and Career Events all across Europe during the year.

We are presenting us to thousands of applicants with backgrounds in Science, Engineering and Technology and showing the jobs that our customers have posted on our jobsite. This gives maximum exposure for the jobs listed.

Main overview of candidates' backgrounds in the Qreer.com database:

## WHY EUROPE

Only Qreer.com facilitates you to advertise specialized science, engineering, and technical jobs across Europe, in just one click.

There is a high demand for qualified technical specialists, and we see increasing difficulties to find these profiles at a regional or national level.

Candidates are open to an international career, allowing a company to find the best suitable candidates possible for their job.

With an unique cooperation with over 80 universities throughout Europe, Qreer.com has an established network to provide maximum exposure to the vacancies on the site; and attract as many visitors as possible.

Our large network provides added value for both jobseeker and recruiter.

Professional network

The Qreer.com synergy

Our website is optimized to efficiently search the right applicant / job.

User-friendly website

European concept

We bring jobseekers and recruiters together on our European platform.

## EFFICIENCY VS. QUANTITY

We aim for high quality selection, we have created an unique search engine; enabling us to match candidate profiles to job profiles.

The more specific you make the profile of the vacancy through our selection criteria, the more likely it is that the requirements of the vacancy are met.

## USER-FRIENDLY WEBSITE

The lean and mean character and easy to use navigation options provide a distinctive edge to the website. It is a completely new approach in the European technical job market.

We believe simplicity is the key to deliver a successful career board.

## ON MONTHLY BASIS

- Over 250.000 page views per month
- Exposure to over 2.000.000 candidates all over Europe via partnerships
- Using over 150 specialties to categorize the candidates database
