

Engineering & Technology Jobs

is the job board hosted by the IET,
Europe's largest engineering body
with over 150,000 members.

E&TJ is promoted heavily to both IET members and non-members from all areas of engineering and technology, providing recruiters with access to a diverse pool of highly qualified candidates.

Used by professional engineers to search for your jobs for their next career move as well as to upload their CVs to be viewed by recruiters.

Need to advertise your vacancies?

Rate Card

The screenshot shows the E&TJ website interface. At the top, there's a navigation bar with 'Home', 'Find a job', 'Employers A-Z', 'My profile', 'Job hunting stats', and 'What is the IET?'. A 'Recruiter sign up' button is also present. Below the navigation is a 'Search engineering jobs' section with a search bar for keywords and a location dropdown set to 'United Kingdom'. There are also links for 'Advanced search' and 'Register / Login'. The main content area is divided into 'Featured jobs' and 'Featured employer' sections. The 'Featured jobs' section lists various roles like 'Electrical Engineer' and 'Power engineering'. The 'Featured employer' section highlights 'Bly-Royce' with several job listings. On the right side, there are sections for 'Recruiters' (listing Network Rail, Vestas, Atkins, etc.) and 'Graduate opportunities'.

This screenshot shows a search results page on the E&TJ website. The search criteria are 'Technology Group Manager' and 'United Kingdom'. The results are displayed in a list format. The first result is for 'Technology Group Manager' at 'TWE Ltd', located in 'London, United Kingdom'. The second result is for 'Professional Engineer Training Programme' at 'Entelectricity'. The third result is for 'Electrical Engineer' at 'ENTRAC'. The fourth result is for 'Systems & Software Engineering Specialist' at 'dstl'. The fifth result is for 'Assistant Electrical Engineer' at 'amec'. Each result includes a brief description of the role and the company name.
