**Discipline Engineer Goliat Subsea Facilities and Pipelines**

The Discipline Engineer Goliat Subsea Facilities and Pipeline will participate in Operational Readiness activities prior to start up, prepare required operational and maintenance procedures and participate in commissioning activities as required. He/she will give operational support within subsea and pipeline discipline after start up. The position is based in Hammerfest. However, if the employed candidate is a graduate, he/she will be enrolled into an extensive training program with activities on various places (Hammerfest, Stavanger, Site, Offshore etc.) in the first 1-2 years.

**Main tasks**

- Ensure operating programs and procedures are developed and adopted during all operational phases.
- Ensure all programs and procedures support solutions that comply with local requirements for zero discharges during normal production mode.
- Responsible to ensure that the subsea facilities are operated within and in accordance with internal and external requirements and maintenance concepts. Continuously follow-up of its performance, availability, capacity and regularity.
- Responsible for assurance of the professional content in maintenance concepts, within operation and maintenance, by cooperation with the Development & Technology Department in development and improvement of the concepts, included criticality assessment for own responsibility area.
- Responsible for necessary equipment documentation is updated and correct within own discipline area.
- Responsible to ensure transmission of experience and standardization within own discipline area, crosswise system and plant.
- Participate in handling of non-conformities pertaining to the different technical disciplines.
- Participate in investigations after incidents and accidents.
- Initiate and be responsible for MOB and Demob activities for subsea modules, change out and repair, inspection activities etc. including coordination of all service contractors involved.
- Be actively involved in these activities by attending as Company representative onboard required
